EXPERIENCE

MIP Holdings

JUNIOR PROGRESS ABL SOFTWARE ENGINEER — 09/2023 - 06/2024

- Wrote clean, scalable, and efficient code following best practices.
- Optimized application performance through code refactoring and analysis.
- Participated in daily stand-ups, sprint planning, and retrospectives.
- Collaborated in troubleshooting production issues and applying fixes promptly.
- Collaborated with senior developers to understand project requirements and deliver solutions on time.
- Participated in code reviews to ensure adherence to coding standards and best practices.
- Wrote queries and reports using Progress Data Dictionary and ABL language.
- Contributed to the migration and upgrade of legacy Progress applications to newer versions.
- Assisted in deploying applications and patches to development, testing, and production environments.
- Communicated effectively with cross-functional teams, including business analysts and testers.
- Contributed to continuous process improvement to enhance development efficiency and code quality.

MIP Holdings

INTERMEDIATE PROGRESS ABL SOFTWARE ENGINEER — 07/2024 - Now

- Developed and maintained business applications using Progress ABL to meet client requirements.
- Collaborated with cross-functional teams to design and implement scalable software solutions.
- Optimized database queries and ABL procedures for improved application performance.
- Implemented business logic and workflows within Progress OpenEdge environments.
- Maintained and enhanced existing Progress ABL applications to support evolving business needs.
- Assisted junior developers by providing guidance and sharing best practices.
